Report: National Energy Conservation Day

Date: 14/12/24

Participants: B.Ed. Students

Conducted By: IQAC in collaboration with R&D and IIC

Objective:

To Increase awareness among future teachers regarding the significance of energy conservation.
To Motivate and inspire future teachers to incorporate energy conservation values into their teaching practices.

Activities:

1. Morning Assembly: The day commenced with a special assembly where students gathered to mark National Energy Conservation Day. The significance of the day and its relevance in the context of sustainable education were highlighted.

2. Student Presentations: Following the assembly, students took center stage to share their insights and suggestions on how, as future educators, they could play a pivotal role in promoting energy conservation among their students. The presentations were informative, creative, and showcased a deep understanding of the issues at hand.

3. Poster-Making Activity: A poster-making session was organized, allowing students to visually express their ideas and suggestions for promoting energy conservation. The posters creatively depicted ways to incorporate energy-saving practices in daily life and the classroom environment.

Outcomes

1. Increased Awareness: The celebration successfully raised awareness about the importance of energy conservation among the student body.

2. Creative Expression: The poster-making activity provided students with a creative platform to express their ideas visually, fostering a sense of ownership and creativity in addressing energy conservation.

Conclusion:

The National Energy Conservation Day celebration at Rahul College of Education served as a successful platform for fostering awareness, creativity, and commitment among future educators. The event aimed to plant the seeds of responsibility and conscious living, ensuring a sustainable and energy-efficient future in the hands of the next generation of teachers.
